Bay State Equine Rescue is an exemplary horse rescue founded in 2002.

The founders are equestrian specialists with many years experience in training and caring of horses.

Dedicated volunteers provide assistance from exercising the horses to mucking out stables.

Respect for horses—their contributions in human history—is at the core of our mission to save, protect, and re-home abused or abandoned horses.

We are 100% volunteer and a MA 501(c)3 non profit organization. www.BayStateRescue.org
